

Benjamin Brauer (Autor)

Persuasive User-Centric Green IS

Exploring the Role and Paving the Way of Information Systems to Induce Pro-Environmental Behavior Change

Table of Contents

List of Figures	viii
List of Tables.....	ix
Acronyms	xi
A. Foundations	1
I. Introduction	2
I.1 Motivation	2
I.2 Research Questions	4
I.3 Structure of the Thesis.....	7
I.4 Research Context and Design.....	11
I.5 Anticipated Contributions.....	15
II. Theoretical Background	17
II.1 Environmental Sustainable Behavior Change	17
1 Behavior Change Theories and Models.....	18
2 Behavior Change in the Context of Environmental Sustainability	23
II.2 Green Information Systems and Persuasive System Design	28
1 Information Systems in the Context of Environmental Sustainability	29
2 Persuasive System Design	32
II.3 User Acceptance and System Adoption	35
B. Studies on User-Centric Environmental Sustainable Information Systems.....	39
I. Status Quo	40
I.1 Study 1: The State of the Art in Smart City Research – A Literature Analysis on Green IS Solutions to Foster Environmental Sustainability	41
1 Introduction	42
2 Related Work and Research Scope.....	43
3 Methodology.....	45
4 Results	48
5 Discussion.....	52
6 Conclusion	55
I.2 Study 2: Green by App: The Contribution of Mobile Applications to Environmental Sustainability.....	57
1 Introduction	58
2 Theoretical Background	59
3 Towards Sustainable Mobile Applications.....	61
4 Methodology.....	63
5 Results	65
6 Discussion.....	71
7 Limitations and Future Research	72
8 Conclusion	73

II. Theories and Mechanisms	74
II.1 Study 3: Towards IS-enabled Sustainable Communities – A Conceptual Framework and Research Agenda	75
1 Introduction	76
2 Barriers and Influencing Factors of Eco-Sustainable Behavior	77
3 Towards an IS-Enabled Framework for Sustainable Communities	80
4 Summary and Outlook	84
5 Limitations and Conclusion	86
II.2 Study 4: The Role of Goal Frames Regarding the Impact of Gamified Persuasive Systems on Sustainable Mobility Behavior	87
1 Introduction	88
2 Theoretical Background	89
3 The Impact of Goal Frames and Affordances in Persuasive Systems on Bike Usage	93
4 Research Design and Method	94
5 Results	97
6 Discussion	99
7 Conclusion	102
III. User Acceptance	104
III.1 Study 5: An Acceptance Model for User-Centric Persuasive Environmental Sustainable IS	105
1 Introduction	106
2 Theoretical Background	108
3 Research Model and Hypotheses	112
4 Research Methodology	117
5 Data Analysis and Results	118
6 Discussion	122
7 Conclusion	125
8 Appendix: Measurement of Persuasive Design Items with Loadings and Weights	126
C. Contributions	129
I. Findings for User-Centric Environmental Sustainable Information Systems	130
I.1 Findings Regarding the Status Quo	130
I.2 Findings Regarding the Theories and Mechanisms	134
I.3 Findings Regarding the User Acceptance	137
I.4 Synthesis: A Holistic View on User-Centric Environmental Sustainable IS	140
II. Implications	142
II.1 Implications for Research	143
II.2 Implications for Practice	145
III. Concluding Remarks	147
III.1 Limitations	148

III.2 Further Research Opportunities	150
References	153
Appendix	xiii
Curriculum Vitae	xv
