Contents

Plenary speeches	9
1. Crops	
1) Crops and cropping systems	15
2) Agro-ecology	51
3) Agro-ecosociology - implications for sustainability	71
4) Trees for people	107
2. Climate, soils and more	
1) Climate change impacts, adaptation and mitigation in the agricultural sector	149
2) Soil quality and soil health	169
3) Abiotic stresses in plants	193
4) Processing, quality and detection	205
3. Animals	
1) Animal breeding and genetic improvement	229
2) Animal feed and nutrition	251
3) Livestock and rangeland systems	285
4) The role of wildlife	307
5) Parasites, pathogens and animal health	313
4. Consumers and food	
1) Pathways to improved food and nutrition security	325
2) Consumer perception - challenges to increase diet diversity	343
3) Food composition - processing - nutritional quality	369
4) Insects as food	395
5. Socio-economics	
1) Crises - poverty - perseverance	403
2) Gender relations and power in agricultural production	425
3) Learning - teaching - co-operating	443
4) Understanding acceptance and implementation of agricultural innovations	463
5) Assessing changing systems - paradigm shifts in data acquisition and modelling	491

6. Institutions	
1) ILRI session	505
2) BMZ/GIZ Session: Bringing innovations into practice – for a healthy and sustainable future	509
3) BMEL Session - Transformative research approaches for sustainable food production and consumption	515
4) Combining practice and higher agricultural education – Challenges and chances	519
