Table of contents

Table of contents	ii
List of tables	iv
List of figures	v
Acknowledgements	vii
Summary	viii
Zusammenfassung	x
Chapter 1	1
General introduction	1
1.1 Urbanization, climate change, and food security in West Africa	1
1.2 Promoting sustainable urban and peri-urban agriculture: Towards enhanced food security	2
1.3 Crop modelling for transformative adaptation of UPA systems	3
1.4 The DNDC model: Challenges and opportunities	4
1.5 Research objectives	5
1.6 Study area	5
1.7 Outline of PhD thesis	6
Chapter 2	8
Soil-climate contribution to DNDC model uncertainty in simulating biomass accumulation under urban vegetable production on a Petroplinthic Cambisol in Tamale, Ghana	8
2.1 Abstract	8
2.2 Introduction	9
2.3 Materials and methods	11
2.3.1 Field experiment and sampling	11
2.3.2 Model input	12
2.3.3 Model calibration and validation	13
2.3.4 Uncertainty and factor importance analysis	14
2.4 Results	18
2.4.1 Site simulation and model validation	18
2.4.2 Uncertainty of biomass accumulation	21
2.4.3 Relative importance of model inputs for biomass accumulation ..	22
2.5 Discussion	22

2.6 Conclusions.....	27
Chapter 3	28
Nitrogen fertigation to maintain soil organic carbon and urban vegetable production under climate change scenarios in Northern Ghana	28
3.1 Abstract.....	28
3.2 Introduction.....	29
3.3 Materials and methods.....	31
3.3.1 Study area, experimental setup, and soil sampling.....	31
3.3.2 DNDC model description and input.....	32
3.3.3 Model validation.....	33
3.3.4 Uncertainty test and contribution index.....	34
3.3.5 Simulation SOC dynamics and biomass accumulation under future climate scenarios	35
3.4 Results.....	37
3.4.1 Site simulation of the SOC dynamics for different management practices	37
3.4.2 Contribution of soil and climate parameters to SOC uncertainty..	40
3.4.3 Climate change effects on simulated SOC dynamics and biomass accumulation under different management practices	43
3.5 Discussion.....	50
3.6 Conclusions.....	53
Chapter 4	54
General discussion and conclusions	54
4.1 Insights from DNDC model calibration, validation, and uncertainty: Learning from urban vegetables production modelling in Tamale, Northern Ghana, West Africa.....	54
4.2 DNDC model application for transformative adaptation of UPA systems: A scenario analysis under climate change	56
4.3 Conclusions.....	58
