TABLE OF CONTENTS

**Table of Contents**

**ACKNOWLEDGMENTS ..... I**

**ABSTRACT ..... II**

**TABLES AND FIGURES ..... VII**

**ABBREVIATIONS..... VIII**

**1. Introduction ..... 1**

**PART I THEORETICAL BACKGROUND ..... 4**

**2. Stress..... 4**

    2.1. Biological and psychological stress concepts..... 4

    2.2. Sympathetic nervous system & sympathetic-adrenal-medullary system. 9

        2.2.1. Measuring SNS/SAM activity ..... 10

    2.3. Hypothalamus–pituitary–adrenal axis..... 11

        2.3.1. Measuring HPA axis activity with free salivary cortisol ..... 14

**3. Exercise..... 15**

    3.1. Exercise and physical stress ..... 15

        3.1.1. Stressors..... 16

            3.1.1.1. Acute physical stressors..... 16

            3.1.1.2. Passive physical stressors ..... 16

        3.1.2. Sympathetic nervous system (SNS) activity ..... 17

        3.1.3. Hypothalamic-pituitary-adrenal (HPA) activity ..... 17

    3.2. Exercise and psychological stress..... 17

        3.2.1. Stressors..... 20

            3.2.1.1. Stroop Test ..... 20

            3.2.1.3. Mental arithmetic tasks..... 21

            3.2.1.4. Reaction time tasks ..... 21

            3.2.1.5. Public Speech..... 22

            3.2.1.6. Real life stressors..... 22

            3.2.1.7. Passive cognitive performance ..... 22

        3.2.2. Sympathetic nervous system (SNS) activity ..... 22

        3.2.3. Hypothalamic-pituitary-adrenal (HPA) activity ..... 24

        3.2.4. Affective reactivity..... 24

        3.2.5. Overview of studies on physical activity and stress ..... 24

        3.2.6. Summary: Conclusions for the experimental design ..... 28

TABLE OF CONTENTS

**PART II EMPIRICAL STUDIES ..... 31**

**4. Stress reactivity of elite sportsmen compared to untrained men..... 31**

4.1. Introduction ..... 31

4.2. Methods..... 33

4.2.1. Participants ..... 33

4.2.2. Procedure ..... 34

4.2.3. Endocrine and Autonomic Measures ..... 35

4.2.4. Psychological Measures..... 36

4.2.5. Statistical Analysis..... 36

4.3. Results..... 38

4.3.1. Description of the Study Groups..... 38

4.3.2. Cortisol Responses to Stress..... 39

4.3.3. Heart Rate Responses to Stress ..... 40

4.3.4. Affective Responses to Stress..... 41

4.3.5. Role of Self-Efficacy for Group Differences in Stress Responses..... 43

4.4. Discussion ..... 43

**5. Effects of physical activity and competitiveness on stress reactivity..... 47**

5.1. Introduction ..... 47

5.2. Methods..... 50

5.2.1. Participants ..... 50

5.2.2. Procedure ..... 51

5.2.3. Physical fitness test..... 52

5.2.4. Psychosocial stress test..... 53

5.2.5. Measures of the SNS and HPA ..... 53

5.2.6. Psychological Measures ..... 54

5.2.6.1. Competitiveness..... 55

5.2.6.2. Primary and secondary appraisal & ways of coping ..... 56

5.2.7. Statistical Analysis ..... 56

5.3. Results..... 57

5.3.1. Study sample ..... 57

5.3.2. Cortisol Responses to psychosocial stress..... 59

5.3.3. Heart Rate Responses..... 60

5.3.4. Affective Responses..... 60

5.3.5. Competitiveness..... 61

5.3.6. Self-efficacy ..... 63

5.3.7. Trait anxiety ..... 63

5.3.8. Primary and secondary appraisal & ways of coping ..... 63

5.3.9. Associations between psychological parameters and stress response  
..... 64

## TABLE OF CONTENTS

5.3.9.1. Influence of competitiveness and trait anxiety on psychosocial stress reactivity .....	65
5.3.9.2. Influence of appraisal and ways of coping on psychosocial stress reactivity.....	65
5.4. Discussion .....	66
<b>PART III GENERAL DISCUSSION .....</b>	<b>72</b>
<b>6. Summary of the results of the empirical studies.....</b>	<b>72</b>
6.1. Stress reactivity of elite sportsmen compared to untrained men .....	72
6.2. Effects of physical activity and competitiveness on stress reactivity .....	73
<b>7. Methodological considerations and limitations .....</b>	<b>73</b>
<b>8. Discussion of the results .....</b>	<b>76</b>
<b>9. Clinical implications and directions for future research .....</b>	<b>87</b>
<b>REFERENCES .....</b>	<b>89</b>
