Table of content

Figures.....	X
Tables.....	XII
Abbreviations.....	XIII
1 INTRODUCTION	1
1.1 Problem statement.....	2
1.2 Research objectives	3
1.3 Research design.....	4
2 CHALLENGES, INFORMATION NEEDS AND BARRIERS IN AGRI-FOOD SUPPLY NETWORKS	7
2.1 Information needs and transparency in agri-food supply networks.....	11
2.1.1 Quality, integrity and safety of food products.....	12
2.1.2 Traceability.....	13
2.1.3 Logistics and organisation of agri-food supply networks.....	15
2.2 Barriers	16
2.2.1 Managerial and organisational barriers	16
2.2.1.1 <i>E-readiness</i>	17
2.2.2 Technical barriers.....	18
2.3 Implications for the research objective.....	20
3 THE BUSINESS INFORMATION SERVICE FRAMEWORK	22
3.1 Information logistics of business information services.....	24
3.2 Service-oriented architecture for business information services.....	26
3.3 Framework development	28
3.3.1 Business process layer.....	30
3.3.1.1 <i>Workflow</i>	31
3.3.1.2 <i>Events</i>	31
3.3.1.3 <i>Inter-enterprise interactions</i>	32
3.3.2 Information service layer.....	33
3.3.2.1 <i>Static information service</i>	34

3.3.2.2	<i>Dynamic information service</i>	35
3.3.2.3	<i>Evaluation and Activity service</i>	37
3.3.3	Service activation pattern.....	38
3.3.4	Enabling technology layer	39
3.3.4.1	<i>Supportive ICT solutions</i>	40
3.3.4.2	<i>Technological development path</i>	40
3.3.4.3	<i>Communication networks</i>	43
3.3.5	Information resource layer	44
4	METHODOLOGY FOR DESIGNING BUSINESS INFORMATION SERVICES	45
4.1	Modelling Framework	46
4.1.1	Infrastructural Elements.....	47
4.1.2	Operational Elements	50
4.1.3	Frames.....	53
4.1.4	Application of the modelling framework.....	55
4.2	Modelling of business information services	56
5	INFORMATION SERVICES FOR THE FRESH FRUIT AND VEGETABLE SECTOR .	63
5.1	Scenario description.....	63
5.2	Selected application cases for information services	67
5.2.1	Information Services.....	68
5.2.2	Supportive technology.....	68
5.2.3	Overview	71
5.3	Provision of decentralised product quality information.....	72
5.3.1	Principal service organisation of this application case.....	73
5.3.2	Service organisation at technology level 1	77
5.3.3	Service organisation at technology level 2	80
5.3.4	Service organisation at technology level 3	83
5.4	Online monitoring of product quality	87
5.4.1	Principal service organisation of the online-monitoring service.....	88
5.4.2	Service organisation at technology level 1	91
5.4.3	Service organisation at technology level 2	94
5.4.4	Service organisation at technology level 3	96

5.5	Activation of a box containing a deficient product.....	98
5.5.1	Principal service organisation of this application case.....	99
5.5.2	Service organisation at technology level 1	101
5.5.3	Service organisation at technology level 2	104
5.5.4	Service organisation at technology level 3	106
5.6	Elaboration of generic integrated components	109
5.6.1	Scanner	109
5.6.2	RFID.....	111
6	ECONOMIC DECISION MODEL FOR ADOPTION.....	113
6.1	Evaluation of benefits by reference process selection.....	115
6.2	Optimization	118
7	DISCUSSION	120
7.1	Business information service and design framework and its applicability	120
7.2	Information services for the fresh fruit and vegetable sector.....	122
7.3	Incentives and barriers for adaptation.....	125
8	SUMMARY AND CONCLUSION	128
	References	135
	Appendix.....	151
	Personal Acknowledgement.....	157
	About the Author.....	158
