Contents

Chapter One: Carbon

- An overview of carbon forestry in China 3
Haijun Yang
- The carbon impacts of forest restoration of natural degraded forest in Ha Tinh Province, Vietnam 11
Dang Thinh Trieu, Angus McEwin and Nguyen The Chien
- Soil carbon stock under different land use systems in Attapady Valley of Nilgiri Biosphere Reserve, Western Ghats, India 21
Sowmya Chandramouli P. A. Sameer, Syam Viswanath and K. M. Nair

Chapter Two: Diversity

- Sumatran tiger conservation under a changing landscape 37
Satyawan Pudyatmoko
- Managing Himalayan biodiversity : A case of assessment and monitoring of Medicinal and Aromatic Plants (MAPs) in Nepal 47
Bharat Budhathapa
- Forest diversity and its implications for biomass estimation approaches in Indonesia 53
Edwine Setia Purnama and Intan Edriani
- Study on the spatial structure and species diversity of different forest types 63
Ping Wu, Ning-xin Lu, Xue-hai Tang and Qing-feng Huang

Chapter Three: Water

- Integrated resource management: opportunities and challenges in Zambia and Nepal 73
Sabina Maiya Prajapati and Likulunga Emmanuel Likulunga
- Soil properties and water conservation function of the natural secondary broad-leaved forests in Northern Sub-Tropics 87
Qing-Feng Huang, Xue-hai Tang, Bin-yu Fan, Ning-xin Lu and Ping Wu
- Deforestation in India: from a forest, water and peoples perspective 97
Marimuthuram Mahendran

Chapter Four: Higher education in forestry

- Expectations towards forestry academic education 107
Achim Dohrenbusch
- Work-integrated learning in forestry education in South Africa: from theory to practice 113
Cori Ham and Antoinette Smith-Tolken
- Some remarks on the role of field labs in academic forestry education 125
Hanns Höfle
- International forest related education in Germany – an overview 137
Sabine Schreiner

Chapter Five: Applications

Hyperspectral data for forest inventories <i>Henning Aberle</i>	145
Comparing digital elevation models for illumination correction of satellite images in mountainous landscapes of Anhui Province, China <i>Nils Nölke and Hans Fuchs</i>	157
Simulating the effects of limited visibility on basal area estimation from Bitterlich samples in a tropical peat swamp forest <i>Damayanti Sarodja, César Pérez-Cruzado and Paul Magdon</i>	165
Is it possible to monitor forest degradation with a single inventory? A case study in peat swamp forests in Indonesia <i>César Pérez-Cruzado</i>	175
Comparing the precision of biomass estimates from a sample based forest inventory and a model-assisted approach utilizing small footprint LiDAR data. A case study from a tropical peat swamp forest in Central Kalimantan <i>Paul Magdon, Edwine Setia Purnama, Damayanti Sarodja and César Pérez-Cruzado</i>	183

Chapter Six: REDD & Country studies

A review of the status and trends of forest cover in Bangladesh and Philippines <i>Pradip Kumar Sarker and Ruffy Rodrigo</i>	197
Comparative study on the participation of the poor in community forestry in Uganda and Nepal <i>Meena Suyal Chhetri and Simon Peter Achuu</i>	209
Remote sensing based monitoring of land transformation in Jambi Province, Sumatra <i>Dian N. Melati, I Nengah Surati Jaya, Muhammad Zuhdi, César Pérez-Cruzado, Lutz Fehrmann and Christoph Kleinn</i>	227
Managing tropical forest landscapes in a changing global scenario with special reference to India <i>Vindhya Prasad Tewari</i>	241
Role of the CREMA concept in REDD: A case study in Ghana <i>Mac Elikem K. Nutsuakor and Natalia Reyes Tejada</i>	257
Prospects and challenges of REDD+ implementation in local communities in Indonesia <i>Yayan Wahyu Candra Kusuma and Aprian Retno Kusumaningtyas</i>	265
